PROJECTS

Big-Bang Store.

GitHub: https://github.com/yemithpml/Big-Bang-Store Live website: https://big-bang-store.vercel.app/

Big-Bang store is a Fullstack React JS E-commerce store for Headphones.
Having all the necessary features of a real life store, users can search available products,
add to cart and view dynamic data rendered from the admin dashboard.

Virco.

GitHub: https://github.com/yemithpml/Virco-Movie-App Live website: https://virco-movie-app.vercel.app/

Virco is a platform I built to display movie data with the TDMB api and allows
search functionality. I built this project is built with React JS, Javascript and css3.

Keeper.

GitHub: https://github.com/yemithpml/Keeper-Notes Live website: https://keeper-app.vercel.app/

Keeper Notes is my version of the keeper app where users can add and delete notes
While maintaining state constantly. I built this with React Js, Javascript, Tailwind css,
Material Ui.
